

BACKUP UTILITY:

ACRONIS TRUE IMAGE 2020

Youtube Presentation by Britac Solutions

Frank Wade

Local photography hobbyist
(and Acronis 2020 user)

File Backups can be a pain

Manual File Backups can be a PAIN

- **Multiple Drives**

Manual File Backups can be a PAIN

- **Multiple Drives**
- **Multiple Versions**

Manual File Backups can be a PAIN

- Multiple Drives
- Multiple Versions
- Hours to Perform

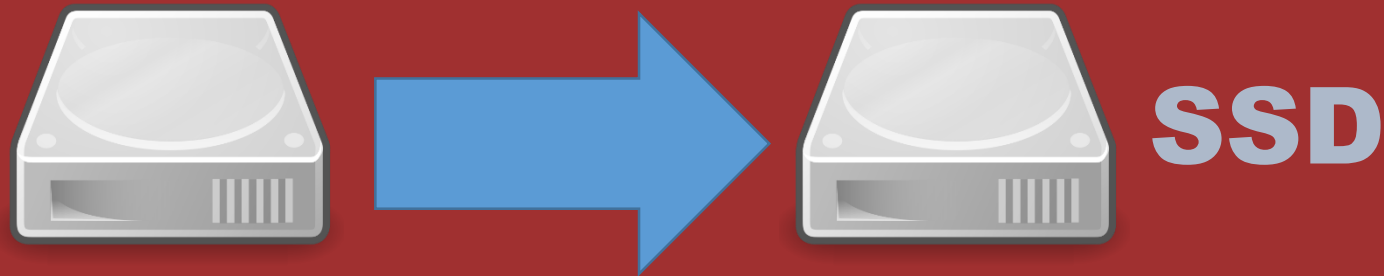

Manual File Backups can be a PAIN

- Multiple Drives
- Multiple Versions
- Hours to Perform
- **Protect from Loss**

My uses of Acronis True Image

- **CLONING** of main hard drive to transfer operating system, all applications and data.

My uses of Acronis True Image

- **Creation of a RECOVERABLE MEDIA to enable troubleshooting and restoring of main hard drive**

My uses of Acronis True Image

- Perform scheduled backups of data from various hard drives

(This is NOT my only backup procedure)

Simple Protection from System Loss and Ransomware.

- **Purchase 256GB SSD (\$40) and USB to hard drive adapter (\$10)**
- **Connect SSD to your computer**
- **Use the Acronis Clone tool**
- **Disconnect, label and stow SSD**

Simple Protection from System Loss and Ransomware.

- **If System Loss or Ransomware occurs, you can replace your hard drive with the SSD and everything will be as it was when you cloned your drive.**

Acronis True Image 2020
